

MOHAMMAD HEYDARI

(+1)5402671622 ◇ Heydari@vt.edu

OBJECTIVE

Graduate student in Construction Engineering & Management at Virginia Tech, expecting to complete studies in Dec 2026. Seeking an entry-level Assistant Project Manager role, with a focus on project planning, documentation, and execution support. Skilled in BIM (Revit, AutoCAD, Navisworks), scheduling, and cost analysis, with applied experience in project documentation, system coordination, and construction technologies.

EDUCATION

Virginia Tech, Virginia, US *Jan 2023 - Dec 2026 (Expected)*
Ph.D., Myers-Lawson School of Construction *GPA: 4/4*
Thesis: Mapping Current State and Technological Transformation of the Construction Supply Chain
Simultaneous M.Eng. in Computer Science *GPA: 3.85/4*

University of Tehran, Tehran, Iran *Sep 2019 - May 2022*
M.Sc. in Construction Engineering and Management *GPA: 18.21/20*

Amirkabir University of Technology, Tehran, Iran *Sep 2014 - Aug 2019*
B.Sc. in Civil Engineering *GPA: 15.65/20*

TECHNICAL STRENGTHS

BIM & Design	Autodesk Revit, AutoCAD, Navisworks, SketchUp
Automation & Scripting	Dynamo, Python, MATLAB, Java, R
Project Tools	Procore, Bluebeam, Primavera P6, MS Project
Skills	BIM Coordination, Model Quality Review, Document Control, Project Planning & Scheduling, Cost Control, Material Procurement

EXPERIENCE

Intellus Build, Inc. *May 2026 – Aug 2026*
Project Coordination Intern, San Francisco, CA

- Reviewed construction documents and permits to assess project progress for property tax appeals.
- Analyzed comparable properties and area development trends to support market value estimates.

Virginia Tech *Jan 2023 – Present*
Research Assistant / Teaching Assistant

- Coordinated information flow and communication between construction supply chain stakeholders.
- Taught Primavera and supported project planning/control coursework for an undergraduate course of 89 students.

Malekan Engineering Group *Jun 2020 – Dec 2021*
Construction Design Consultant, Tehran, Iran – Part Time

- Coordinated BIM models across design teams, prepared submittals, and resolved RFIs for compliance.

Tecnosa *Nov 2019 – Apr 2020*
Project Intern, Tehran, Iran

- Supported site layout planning analysis for equipment/material flow optimization.
